

Northern Australia Climate Program

Bringing the BOM to the bush! Northern NT

Climate Mates Anne Marie Huey & Emily Hinds, along with Bureau of Meteorology Climate Scientist, Dr Andrew Marshall, are heading to your area to talk seasonal forecasts and the weather that affects your area.

Where: Jeremy & Amy Trembath's property, Lonesome Duck Station, Stuart Highway Katherine

When: 10.30-11.30AM, Tuesday 29th August 2023 followed by lunch (supplied).

What: Presenting the latest long range seasonal forecast, current climate drivers, where to look, useful apps, all in an informal & open forum with questions encouraged.

Topics:

- *The main drivers affecting the climate and weather in this region*
- *How to access and interpret medium to longer term seasonal outlooks*
- *Land and herd management decisions affected by seasonal outlooks*
- *Demonstrate a number of useful forecasting products, tools and websites for production decisions.*
